Last month the Minden Chamber of Commerce welcomed Kim Snavey and Melanie Buehler of State Farm to the Chamber board. We are looking forward to how they will impact our Minden community for the better. We would like to thank Kim for the incredible gift she helped State Farm secure for TeamMates. The mentoring program received \$5,000 in order to continue the one-on-one club to build up confident kids and have fun! They were recently named "Chapter of The Year" for 2022! If you're interested in becoming a mentor, email minden.teammates@mindenwhippets.org or go to their website: www.teammates.org/become-a-mentor.

Royal Composites

What is the coolest thing made in Nebraska? That's a question that the Nebraska Manufacturing Alliance wants to find out with a competition that will announce the winner on October 11th at the Nebraska Chamber's Manufacturing Summit in La Vista. The finalists will also be invited to display their products. So far, Royal has made it into the top eight with local votes from their community.

The Minden company makes parts for things that are out of this world! If it flies, it's a smart guess, parts for it have likely come from Royal. In 2020, NASA's 300 million-mile journey into outer space—was proudly supported by Royal Engineered Composites. Ducting from the company was engineered for NASA's Mars Mission.

Franklin Locker (Midwest Meat Company) would like to invite you to use their services for all your processing needs. Visit their wild game processing page at www.franklinlocker.com or call (308) 425-9974 for all the details. They would like to remind you they are a drop off point for *'Hunters Helping the Hungry.'*

A donation to the program doesn't cost the hunter anything, and it helps local families who will put the venison to good use. We hope everyone has a great season. Be safe and good luck!

- **Building Permits:** The City would like to remind residents that building permits need to be completed for an addition, fence, concrete, deck, sidewalk, carport, & garage. Applications can be picked up at City Hall or on the City website.
- **Flushing Water Mains:** The City has begun its Annual Flushing of Water Mains. This process does stir up sediment and may cause temporary discoloration of your water. Running your faucets will reduce the discoloration while the sediment moves through the water system.
- **Recycling:** The City asks residents to remember the following when recycling: Please have items out by 8am. Break down ALL cardboard. Remove bottle caps, NOT recyclable. Have ALL recycling sorted in different bins or bags. For information on items that can or cannot be recycled, please contact City Hall.
- **Addresses:** All homes & businesses numbers must be clearly displayed on the residence or structure. The numbers need to be legible and in a contrasting color to its background. They need to be three inches high by two inches in width. This is required by City Code 70-82 and most importantly, to aid emergency response services such as fire and police. Any violations are subject up to a \$500 fine.
